First thing to do is to create a new project with a name you like, e.g., "Exercises_LCA_course_2020"

You are now ready to start!

Get familiar with Simapro.

Use the tutorials (Introduction, Lesson 1, Lesson 2A), that you find in the pdf file under: *Help> SimaPro Manuals>Tutorials*

Or directly download the tutorial at this link: https://support.simapro.com/articles/Manual/SimaPro-Tutorial/

You also find a youtube tutorial video here: LCA with SimaPro 8: Tutorial 1 - YouTube
